Private Equity and Venture Capital in Africa

January 2018

AlliedCrowds
Introducing the first free, complete directory of private equity and venture capital funders across Africa. The data is based on the AlliedCrowds Capital Finder, a database of over 7000 alternative finance capital providers across emerging markets.

We found there is a dearth of information available to those who want to get a better understanding of the PE/VC landscape across Africa. In order to help remedy this gap, we decided to generate the first complete list of PE/VC investors across Africa, available for free to the public.

The report is split into two key sections: the first one is an overview of PE/VC firms, and how active they are across the biggest markets on the continent. We hope this ‘at a glance’ view will help the readers to quickly understand who to reach out to when exploring the alternative finance ecosystems across specific countries or regions.

Each company in the overview section is linked to a more in-depth funder profile, which are listed below. These profiles offer more actionable information about each investor: where they are active, a brief description about them, their office locations, as well as other useful data points.

We believe information is a crucial missing piece of the alternative financial ecosystem across emerging markets, and we have compiled the Capital Finder database and this directory to attempt to remedy this gap. Our data has been used by organizations like FSD Africa and UNDP Indonesia in order to provide unique, actionable insights into the world of emerging market alternative finance.

We believe this directory will help students, researchers, journalists, analysts, government officials, startups, investors, and many others to get a better picture of PE/VC activity across Africa. To find out more about our methodology, or to speak with us about how our data may be useful to your organization, please reach out to reports@alliedcrowds.com.

Sincerely,

Anton Root
Head of Research

All data presented in this report shall remain at all times the property of AlliedCrowds Ltd. The data cannot be copied, redistributed, sold, or otherwise used for any commercial purpose without the written consent of AlliedCrowds.
Number of PE/VCs by Country
Darker shading signifies a larger number of funders.
The following table provides an ‘at a glance’ overview of the firms in our database, and shows how active they are in some of the biggest markets across Africa.

1776
http://www.1776.vc

At 1776, we know that startups can change the world and we're building the global community to provide the intellectual, social, and financial capital to help them make that a reality. At its core, 1776 is a global incubator and seed fund that helps engineer the success of the world's most promising startups tackling important challenges in areas like education, health, energy & sustainability, and transportation & smart cities. Our Focus We've purposely chosen challenging, government-dominated markets because our roots in Washington, DC give us proprietary connections, insights, and tools that can be used to drive massive scale revenue growth. The key to it all is connections and learning, which we curate through our global platform Union. We connect our startups to the latest wisdom on how to build highly scalable businesses through our curriculum. To expert mentors who can help startups quickly solve problems. To markets through our institutional and corporate partners. To capital through our investor network and the 1776 Seed Fund. And to talent through our community relationships across the globe. Creating and Fostering a Global Community 1776 has forged partnerships with leading startup incubators in the world's most dense startup communities—known as the Startup Federation—and we are tapping those relationships to build density globally and operate an ecosystem that transcends geographic boundaries. As a result, our world's most promising entrepreneurs and young companies can access the resources they need to scale regardless of the city the choose to call home. To highlight the importance of these global connections, 1776 hosts an annual competition called the Challenge Cup, engaging Startup Federation partners in 16 cities across the world, to identify the most promising new startups and connect them with the information, mentors and resources they need to succeed—regardless of their geographic location.

42Kura
http://www.42kura.com

ISRAELI - RWANDAN COLLABORATION DESIGNED FOR GROWTH Our vision is to transform Rwanda into a leading African tech hub and a gateway for Israeli participation in the continent's ICT ecosystem. As a group of Rwandan and Israeli entrepreneurs, we know that founding a startup is similar to running a 42K Marathon. It takes will-power, patience, persistence, long term thinking, and a zen state of mind. We are here to help founders overcome the startup wall, and proceeding into "Kura" - the Kinyarwanda expression for "Growth". Why Rwanda? We believe in the African ICT opportunity, see great potential in its local talent, and recognize Kigali’s ability to be at the forefront of these innovative markets. The African economy will generate $2.2T in additional GDP (72% increase) and 140M new jobs. The 350M African middle class will spend its $680B on new services, using 3G/4G smartphones that will reach >75% of Africans by 2018. These opportunities attracted over $600M in VC capital to date. Kigali is the best "Beta-Site" economy to test opportunities for the African ICT market: Rwanda has the world's fastest HDI growth rate, 7% GDP AGR, business friendly environment and immense investment in ICT, both education and practical. Together with its leading academic institutions, creative class, and entrepreneurial culture, Rwanda is a great habitat for innovation that targets the African market and beyond. 42Kura is Powerd by the Marathon Group Marathon is a multi-national investment group, emphasizing private equity and international development. Marathon's Managing Partner, accomplished banker and entrepreneur Mr. Hezi Bezalel (who is also Rwanda's Honorary Consul), first arrived in Rwanda in July of 1994 and proudly began investing and partaking in the development of the country ever since, in fields such as infrastructure and telecom.

4Di Capital is an independent early-stage technology venture capital firm based in South Africa’s “Silicon Cape”. Nurture capital is the term that best describes 4Di Capital’s purpose and philosophy. We understand that in the early days of any business, support, mentoring and access to networks is just as important as seed capital.

Accion Venture Lab  
https://www.accion.org  

Founded in 2011
Venture Lab is an investment initiative that provides patient seed capital and support to innovative financial inclusion start-ups, fostering experimentation and promoting business models that improve financial access for people living in poverty worldwide. Since these start-ups traditionally lack access to capital and assistance, Venture Lab provides flexible financial and non-financial support to suit the needs of each investee enterprise, as follows: Accion Venture Lab will typically invest U.S. $100,000 to $500,000 in equity or quasi-equity instruments, depending on the circumstances. We welcome opportunities to co-invest with like-minded investors and bring others to the table, particularly for later-stage investment into portfolio companies.

Address

ACE & Company  
https://www.aceandcompany.com  

Founded in 2005
ACE & Company, is a global private equity group specialized in co-investments. By combining the in-house team capabilities with those of our partners, ACE is able to source, diligence, and execute on superior investment opportunities. This collaborative vision allows for a more efficient diversification across the different investment stages of private companies globally. Within this broader set of opportunities the company strives to facilitate the efficient allocation of capital to the most attractive industries and markets on a risk adjusted basis. ACE aims to actively improve investment returns by adding strategic value to both its portfolio companies
and sourcing partners by leveraging its broad investment knowledge. At the core of its philosophy, ACE strives to ensure alignment of interest of all parties by being involved in every transaction it undertakes.

Africa Capital Group LLC
http://www.africacapitalgroup.com

Our mission is simple and clear: to provide our clients a focused, transparent and cost-effective means to access the tremendous growth opportunities on the continent of Africa. Today the continent—sub-Saharan Africa in particular—features rapid growth, abundant natural resources and a large, young and increasingly educated workforce. We employ a bottom-up company-by-company approach to portfolio construction, taking into account such factors as competitive advantage, growth rate, valuation, profitability, management skill and accessibility, currency risk and political risk. We focus primarily on sub-Saharan Africa, where we believe the best opportunities are located.

African Wildlife Capital
http://www.africanwildlifecapital.com

The African Wildlife Foundation, together with the people of Africa, works to ensure the wildlife and wild lands of Africa will endure forever. African Wildlife Capital (AWC) is a mission-based investment company owned by African Wildlife Foundation. AWC uses impact investment capital to help develop private-sector enterprises with promising commercial and conservation potential. After more than a decade of successful engagement in conservation enterprise work, AWF recognized the need for a new type of conservation finance. Thus, AWC offers alternative development financing in the form of structured loans to selected small- and medium-sized conservation enterprises. This financing supports enterprises with promising business models that can help protect habitat or wildlife populations—while also benefiting the livelihoods of local Africans. AWC is intended to take AWF’s work to a new scale and use the capacity of Africa’s burgeoning private sector to do more, in more places, for the benefit of conservation and people.

### Bidvest Namibia

**Founded in 1989**

http://www.bidvestnamibia.com.na

Bidvest Namibia launched a new enterprise development fund, aimed at linking the group's suppliers to SMEs who have tenders to honour. The Bidvest Namibia Enterprise Development Fund consists of a N$20 million credit facility offered by the company to SMEs that can prove they have tenders pending from government ministries, SOEs and large private entities. The fund will function as a short-term facility to be paid back over 60 to 90 days. It is expected that the original N$20 million investment could be turned around up to four times a year (equating up to N$80 million). The only other condition is that the approved loan funds are to be used to purchase supplies needed for the tenders, from participating Bidvest Namibia entities.

Blue Haven Initiative

http://bluehaveninitiative.com

THE PREMISE
We believe that every dollar invested has an impact. At Blue Haven Initiative, we want that impact to be positive – in terms of financial, social, and environmental performance. We are a family office, therefore we have a long-term orientation, and we value social and environmental factors as a risk mitigation strategy. We have very high standards for our investments and hold ourselves accountable to the results of our decisions. We think every dollar counts, not just the ones with a sexy story. HOW WE WORK

Blue Haven Initiative makes investments in companies, funds, and financial products that seek to optimize financial, social and environmental return. We have two approaches: The Broad Strategy: Working closely with the Caprock Group, we manage a diversified portfolio across all the traditional asset classes, including public equities, fixed income, alternative investments and real assets. We invest in a broad range of themes and sectors, opportunistically selecting managers and products that we think are best in class. If we can’t find a product that fits our needs from a risk/return/impact standpoint, we will work with managers to help build a new product. Anything that is not a direct investment falls into this strategy. Direct Investment Strategy: In-house, we manage an evergreen portfolio of venture investments directly into for-profit companies that are creating positive social or environmental impact. To enhance innovation, we invest using a variety of capital types, including equity, debt and hybrid structures.

### Business Partners International

**http://businesspartners.co.za**

About Business Partners International Business Partners International (BPI) is a fund management company that supports SME growth by providing financing, specialist sectoral knowledge and added-value services to viable SMEs in sub-Saharan Africa. BPI was established in 2004 as a subsidiary of Business Partners Limited, to apply the investment model refined in South Africa to other African countries. Funds have been established in Kenya, Malawi, Namibia, Rwanda, and Zambia. The management of the Funds is organised to implement the principles that Business Partners has developed to manage investments in SMEs in Africa over the last 30+ years. What we do BPI manages the Funds and Technical Assistance Facilities through its wholly-owned fund manager subsidiaries in Kenya, Malawi, Namibia, Rwanda, and Zambia. We offer unique and individualised risk finance solutions to SMEs according to the specific needs of our clients in the countries we operate. Management support, business building and value add services are provided through Technical Assistance. Success is achieved by integrating financing and technical assistance in a commercially and socially sustainable manner.

CapitalPitch Ventures

https://www.capitalpitch.com

We believe that Startup Capital raising shouldn’t be so damn hard! It’s madness that 97.3% of Startups fail at fundraising. CapitalPitch is a platform to accelerate startup investment and Venture Capital. Since launching in January 2015 we have over 1,800 startups in our community with 9 having successfully raised over $13 million. Every great startup, no matter their location or circumstances, should be able to raise the capital they need to accelerate (and massively scale) the solution to a big problem that could change the world. It’s time to disrupt a complex, opaque and dysfunctional finance sector that allows great Startups to struggle and fail. Today, like many revolutions before us, we’re using technology and experts to create a movement to fast-track startup investing. Everyone should be able to invest in the future of job creation & innovation.

Consorzio Etimos Sc

**http://www.e-mfp.eu**

Etimos is a transnational co-operative consortium including over 280 organisations in Italy, Europe and in developing countries: microfinance institutions, producer cooperatives, associations, universities, schools and social promotion institutes, cooperatives, fair trade shops, NGOs, banks, foundations, public authorities and religious associations. The strength and specificity of Etimos are linked to this “consortium” based setup consisting of a network of different organisations by sector, size and geographical location, but all equally determined to promote a new development model. Etimos provides its members with the tools necessary to promote economic and social growth of local communities translating into capital, resources, knowledge, technical assistance, training, opportunities for dialogue.

DARECHA

http://darecha.org

DARECHA is a unique youth-led organization that develops, connects, and supports those individuals who, through effective and sustainable business ventures contribute to making poverty history. DARECHA was founded in 2008 by Julius James Shirima with the belief that entrepreneurship is the key to transforming the African economy. We believe that in order to effectively deal with poverty and any other economic hardship we need to develop a thriving private sector thus we embrace the idea that entrepreneurs regardless of their background, financial capacity or education level are the drivers of any strong economy. We, therefore, seek to equip young, aspiring entrepreneurs with skills, knowledge, and guidance to help realize your ideas. Through our programs, DARECHA addresses the problem of youth unemployment and poverty by filling the gap left by the formal education system in Tanzania where about 95% of the 700,000 youth from primary, secondary and tertiary learning institutions entering the job market annually do not get employed in the formal sector due to lack of knowledge, skills and hands-on experience. The current education system does not prepare students to tackle real-life problems but instead only prepares students to pass exams. Furthermore, elite schools that may offer some kind of skills building are generally unaffordable to majority of the population. Vision To enable and empower youth in Tanzania [and Africa] to have a better future. Mission To bring about strong and sustainable social and economic growth in Tanzania [and Africa] through promoting and inspiring an entrepreneurial mindset among the youth

D.Capital Partners

http://www.dcapitalpartners.com

We believe in creating value for our clients and social impact through our projects. We build capacity by passing on knowledge and expertise to our clients, and we guide them in forming partnerships that will help them to realize their potential and fulfill their goals. The world of finance is changing. Capital flows to the developing world outpace traditional sources of development finance, and investors in emerging and frontier markets are increasingly looking for opportunities that deliver on social impact or sustainability objectives. We help our clients navigate this changing world. Our Investing for Development practice provides a suite of services related to the design and formation of investment funds and financing facilities, as well as the identification and assessment of new investment opportunities in emerging and frontier markets. With our on-the-ground knowledge of emerging markets and deep experience working at the intersection of the private and public sectors, we help our clients discover new markets, develop blended finance partnerships, and structure and launch new investment vehicles.

Engineers Without Borders Canada

http://www.ewb.ca

Founded in 2000

EWB Ventures EWB Canada invests in ventures that will drive innovations to change the systems that cause and perpetuate poverty. We spark and accelerate their growth, build their capacity and ensure their long-term independence and sustainability. Our ventures receive financial support, volunteers and professional mentorship that help guide their actions toward greater, sector-wide impact. Our ventures’ impact is local, but their innovations have the potential to challenge global systems. Some bring affordable financing to rural entrepreneurs. Some improve delivery of vital government services. Some mobilize Canadians to change the way companies think about social responsibility. All challenge the status quo and provide radical alternatives to unjust systems. Small and Growing Business Sub-Saharan Africa has the highest global rates of early-stage entrepreneurship; a quarter of the continent’s citizens work in the 17.7 million small and medium sized businesses. The sector is poised for growth and brimming with innovative potential. Our SGB portfolio supports ventures that are breaking down barriers to African entrepreneurship. They are addressing the lack of available financing, talent and strategic support for those enterprises too big for microfinance and too small for commercial investors — the “missing middle.” We are supporting the bold, transformative innovations that will enable these entrepreneurs to succeed.

Flint Atlantic  
http://www.flint-atlantic.com  
Founded in 2015

Flint Atlantic Capital was borne out of a desire to transform the healthcare landscape in Africa. Leveraging deep insights in the Africa healthcare landscape and high impact investments that unlock the market potential of the health sector, we aim to create a paradigm shift that facilitates the sector's transition from being a perceived economic drag to becoming a net contributor to economic growth. The firm is able to consider a broader spectrum of healthcare opportunities than the typical venture capital or private equity firm. As an impact investment firm, we utilise patient capital in the form of grants; debt; and equity to implement an investment structure that loosens the rules around return profiles and investment horizons while also using social impact as a key criteria for determining the fit of an investment within our portfolio.

Genesis Capital Partners

http://www.gcpartners.co.za

Founded in 2006

Focused on building sustainable long-term value Genesis Capital Partners is a privately held, owner managed investment company focused on building sustainable long-term value for all its stakeholders through equity returns. The shareholders of the business are management and a small, select group of high net worth individuals and family offices, with whom Genesis Capital Partners shares long-standing relationships. Since its inception in 2006, Genesis Capital Partners has built a substantial and valuable portfolio of investments, comprising the following focus areas: • Property • Financial Services • Education • Media • Food • Industrial Services • Gaming The group is not a private equity fund, and therefore is not dictated to by stringent mandates in terms of time horizon or sector. Genesis Capital Partners has the ability to hold assets as required, with no predefined exit period. This allows the group versatility and nimbleness in decision-making with the ability to hold assets through the business and economic cycle, and to realise the true value of investments at the most appropriate time. Additionally the group has the flexibility to invest in sectors that may temporarily be out of favour, but which over the long-term represent compelling investment opportunities. Over the years, the business has adopted a partnering approach and invests alongside trusted, professional partners and management teams. Genesis Capital Partners has formed a strategic partnership with Natie Kirsh from the Kirsh Group with whom Genesis Capital Partners is co-invested equally into both Genesis Properties and Monash Private Capital in Australia. The Group has strong geographic and industry diversification outside of South Africa, with investments in the US, UK, Europe, Africa, Australia and South America.

### Goodwill Investments

**Founded in 2006**

[http://www.goodwell.nl](http://www.goodwell.nl)

What we do Goodwill Investments provides early stage growth capital and hands-on support to providers of basic goods and services for the majority world in sub-Saharan Africa and India. We invest in enterprises that are financially sustainable, scalable and that deliver investors significant financial returns. We provide: inclusive growth capital in growth sectors in growth regions with entrepreneurs that have growth ambitions and that we as Goodwill Investments can support with our experience in inclusive growth and our capability to steer growth processes to mass markets in growth regions of Africa. We strive for the best possible performance of our portfolio companies by being locally present, securing leverage and ensuring good cooperation of all stakeholders. Since 2007, our teams have supported the growth of micro-finance and mobile payment companies in India, Ghana and Nigeria and enabled them to reach excellent financial and social returns of our investments. Currently we are raising funds for our third fund, Goodwell III. This fund will invest in inclusive growth businesses serving mass markets in sub-Saharan Africa. We work closely together with our colleagues from Goodwill Advisory Services. They consult a broad range of clients in the impact investment scene.

**inco**

**Founded in 2015**

Our world is facing unprecedented challenges due to lack of economic opportunity and growing inequalities. But there are also tremendous opportunities to embrace – new jobs emerging to meet the demand for labor and keep the economic engine running, disrupting technologies providing new pathways to opportunity, to name a few. Our world is profoundly changing, providing us with the ideal momentum to design a new economy that makes more sense. INCO believes in a more inclusive world where everyone is given the resources to benefit from and contribute to a more sustainable economy.

Innoventures, LLC
http://www.innoventures.me
Innoventures, LLC was founded in 2011, as an innovation platform to bring the wealth of original Egyptian technology ideas to market. These ideas are potentially successful business ventures, with an innovative team behind them, but are missing the correct management and supporting business facilities, such as financing, marketing, etc. Innoventures adopts these project ideas, explores them further, and manages them until they are profitable, high-impact, growing businesses. As such, Innoventures defines its role as technology venture management. At the core, Innoventures is a venture capital firm. However, we have taken the liberty of making some innovations to our own business model to be more compatible with the Egyptian and Middle Eastern market, to make more efficient use of VC money, and to more effectively identify and support only the most innovative and valuable business ventures. In contrast to a traditional venture capital firm, Innoventures takes a very hands-on approach, adopting many of the projects, during their earlier stages, into its own organizational hierarchy, and managing the details of the project very critically and directly, rather than just providing the owners of the idea with funding and superficial administrative support. Innoventures also provides a shared business resource center, and a support network of entrepreneurs, which affords lower costs for the start-up ventures, and increases their chances of success. In terms of investment strategy, Innoventures focuses on technology projects, an area of significant attention in the Middle East, but that is still not as developed as it can be in terms of support for entrepreneurs. The founders of Innoventures also believe that innovative projects, rather than projects based around consumer services, will make the greatest economic impact, and so, while they are more risky, stand more of a chance of success in generating higher returns and higher growth in the long-run. Innoventures wants to help you turn your ideas into successful businesses that change the world. We are Venture Capital and accelerator, focused on innovative Egyptian startups. Have a cool business idea? Get in touch!

Kingdom Venture Capital Fund  
http://www.kvcf.com  

Founded in 2014  

Back to Table
KVCF was a dream embedded into the heart of Matt Cook while attending ministry school. The name ‘Kingdom Venture Capital Fund’ came from the concept of injecting ‘Kingdom’ principles into practical business applications to create value for investors, investees, clients and communities alike (vs. social impact investing, which puts a heavier weighting of benefits on the investee side). While KVCF endorses social impact investing, which is very similar, we favor Kingdom-oriented investing. Towards the end of his studies, Matt ventured to Sierra Leone on a missions trip and was convinced this nation would be the birthplace of KVCF. His utmost compassion for the local people and the realization of unlocking tremendous value in the region sparked the flame that launched KVCF. Matt went back to Sierra Leone after his initial trip, researching 40 potential businesses and industries. The goal was to find a compelling business that could prove itself profitable, with rapid-growth potential and the ability to create maximum social and economic change. While many options existed, the cocoa industry stood above all, and so KVCF was born and launched it’s first company, both planting and exporting to the world market. Recently, four highly experienced individuals were added to the management team, all of which have significant success track records in corporate finance, physical commodities trading and commodity trade finance.

**Omidyar Network**

https://www.omidyar.com

At Omidyar Network, we start from a fundamental belief: People are inherently capable, but they often lack opportunity. We believe if we invest in people, through opportunity, they will create positive returns for themselves, their families, and the world at large. We also believe that businesses can be a powerful force for good. Pierre Omidyar experienced this firsthand as the founder of eBay. Just as eBay created the opportunity for millions of people to start their own businesses, we believe market forces can be a potent driver for positive social change. That’s why we invest in both for-profit businesses and nonprofit organizations, whose complementary roles can advance entire sectors. Omidyar Network invests in entrepreneurs who share our commitment to advancing social good at the pace and scale the world needs today. We are focused on five key areas we believe are building blocks for prosperous, stable, and open societies: Education, Emerging Tech, Financial Inclusion, Governance & Citizen Engagement, and Property Rights. We take calculated risks in the earliest stages of innovation, helping to transform promising ideas into successful ventures. As an active impact investor, we offer more than just financial support. We provide vital human capital capabilities, from serving on boards to consulting on strategy, coaching executives to recruiting new talent. We connect promising investors to entrepreneurial visionaries with business know-how. We also leverage the tremendous capacity of Web and mobile technologies to go beyond incremental improvement and make a significant, widespread impact. Understanding the scale and importance of this work, we don’t undertake the challenge alone. The most powerful force for change lies in our connection with others: business, government, nonprofits, and individual partners. Together, we can use our resources to transform scarcity into abundance and put enduring opportunity within reach of more people worldwide.

### Prevance Capital

**Founded in 2000**

Established in 2000, Prevance Capital is a specialist provider of trade, bridging and equity finance. Our bridging finance solutions assist you in accessing funds that may only be due to you in the near future. Bridging Finance is of a short term nature and Prevance is there to help you to bridge the gap until the anticipated date of receipt of funds. Typically, we advance funds upfront to sellers of properties were the proceeds are only receivable on transfer of the property through the deeds office system. This includes estate agents and agencies' commissions which generally are also payable on transfer of the property sold. Short terms loans can also be arranged, secured by first mortgage bonds over a property supported by a credible repayment plan for the loan. The newest
product which we offer is Auction Funding which enables the client to take full advantage of an opportunity as it presents itself. To find out more about what we offer, please visit our website: www.prevance.co.za Specialties Bridging Finance, Short Term Loans, Auction Funding, Advance of Estate Agent Commission, Advance On Transfer Duty and Rates, Sellers Equity Advance

**Qalaa Holdings**

Founded in 2004

http://www.qalaaholdings.com

A LEADING INVESTMENT COMPANY… Qalaa Holdings is an African leader in energy and infrastructure. We build businesses in core industries that will define our region’s future. The 40,000 employees of our core subsidiaries and other investments work each day to deliver energy to consumers and businesses alike; to provide reliable, fuel-efficient transportation solutions; to grow or manufacture safe, healthy food; to add value to natural resources; and to help build critical national infrastructure. We prize innovation, value creation and sustainability in all of our investments. …IN KEY INDUSTRIES… Drawing on our roots as Africa’s largest private equity firm, we have worked since 2004 to build world-class businesses that cater to the needs of the more than 1.3 billion consumers across our footprint in Egypt, East Africa and North Africa. We bring to the table the passion of entrepreneurs, the proven systems of world-class finance professionals, and deep operational expertise in each of our industries: Energy, Cement, Agrifoods, Transportation & Logistics, and Mining. …THAT WILL DEFINE OUR REGION’S FUTURE. In a few short decades, Africa and the Middle East will be home to the world’s largest working-age population. Today, seven of the world’s ten fastest-growing nations are on our continent, which is now home to more than a billion consumers. The businesses we build in our core industries are regional champions that will serve as engines of national growth in the exciting years to come, creating jobs and helping make our economies more efficient, more sustainable and more globally competitive.

Silvertree Capital  
http://silvertree-capital.com  
Founded in 2001

Who we are  
We’re a business builder and investor for the African market, merging old and new economy business models. Our focus industries are online/mobile with clear revenue model; B2C e-commerce; price comparison for goods and services; and professional services using our capabilities at scale. We build our own ideas, support entrepreneurs and look for opportunities for scale across multiple businesses. We focus on execution, using our track record in e-commerce, management consulting and private equity, and deep knowledge of Africa. We like business models that focus on the needs of Africa’s emerging consumers, that have clear revenue streams, and that take advantage of the mobile and Internet future.

### The Moringa Partnership  
**http://www.moringapartnership.com**  
**Founded in 2012**  

Moringa is a EUR100m investment fund which targets profitable large scale agroforestry projects with high environmental and social impact, located in Latin America and Sub-Saharan Africa. The fund makes equity investments of EUR4-10m into projects and adds value via its technical skills, environmental and social know how and global network. The fund leverages the inherent sustainability of agroforestry to distinguish itself from other land-based investment approaches and to build genuine sustainability into its projects. Agroforestry will become a central element in the global response to the growing demand for sustainable agricultural and timber
products, global warming, biodiversity conservation and poverty alleviation. It combines trees and crops or livestock under conditions which help to generate synergies, and, therefore better land management, higher productivity, higher and more sustainable income for local populations, reduced risks and positive environmental impacts.

**Today Tomorrow Ventures**  
**http://todaytomorrowventures.com**  
TodayTomorrow Ventures (TTV) is an impact investment fund created by a group of people united in their shared values, beliefs, and the common experience of being on the ground in Africa creating change. Our objective is to bring about real and sustainable economic, environmental, entrepreneurial, social, and civic development through investment in — or the creation of — financially sound businesses. Social impact The goal of our investments and ventures is to have some degree of positive impact upon: Employment and community development. Increasing the value of existing export streams and creating new ones Science technology, engineering and mathematics (STEM) education, specifically focused on youth. Business incubation, support infrastructure, and collaboration between universities and emerging initiatives We also want to increase our social impact through the promotion of: Competent leadership and sustainable business operations. Industry-leading operational practices that are both environmentally responsible and sustainable. Ethical executive leadership and policy making that benefit relationships with personnel, families, business partners, government institutions, and the community.

TVM Capital Healthcare Partners

**http://www.tvm-capital.ae**
TVM Capital Healthcare Partners is a specialist private equity firm that invests in emerging markets in the MENA, Turkey, India and Southeast Asia, meeting growing demand for high quality healthcare provision. We started operations in Dubai in 2007 in the Dubai International Financial Centre (DIFC) and are regulated by the Dubai Financial Services Authority (DFSA). We undertake extensive research to identify unmet needs, and invest in companies with high potential for rapid growth. Crucially, the management of these companies must be experts who are totally dedicated to delivering world-class service. We believe that private equity investment should be a force for good, and by working in the area of healthcare, we have a real opportunity to make a difference to patients’ lives. It is vital that investment must be carried out responsibly to gain and retain the trust of all stakeholders and remain sustainable. So we work closely with governments and key organizations to ensure that we help to carry out policy and complement existing services by creating specialist centers of excellence. Our recipe for success is a blend of expertise, which only true specialization brings, and a commitment to being hands-on in creating long-term value. We deploy our global network to link portfolio companies with the world’s leading research institutions and healthcare organizations, to ensure high quality such as the Spaulding Rehabilitation Network (a Harvard Medical School teaching hospital), Joslin Diabetes Center (an independent, non-profit institution affiliated with Harvard Medical School), or Bourn Hall Clinic, Cambridge, UK (the world’s first IVF clinic) to create new business opportunities. Other partners include Joint Commission International, who identify, measure, and share best practices in quality and patient safety or Planetree Inc., a mission based not-for-profit organization that partners with healthcare organizations around the world and across the care continuum to ensure best possible patient-centered care. We are passionate about excellent governance and transparency. We demand it from our portfolio companies, and we know our investment partners expect it from us. We also believe that promoting diversity in leadership teams – at TVM Capital Healthcare Partners and at our portfolio companies contributes to good governance. It encourages different ideas, open-mindedness and therefore innovation. We are convinced that diversity leads to better operational and financial performance. Our TVM Operations Group sets us apart, adding considerable value to our portfolio companies and reducing investment execution risk. By supplying support functions, it allows the companies to concentrate on delivering high quality service to patients, while benefitting from a pool of expertise in areas such as strategy development, IT, legal, finance, marketing and HR. TVM Healthcare Advisors provides a wide range of operational and strategic advisory services across all areas of healthcare investments. TVM Capital Healthcare Partners is part of TVM Capital Group, an affiliation of global venture capital and private equity firms with an operating track-record of over 30 years.
